RE: Water supply for 7-unit PRD located off Raceway Road, Jericho, VT

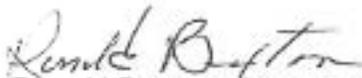

Dear Mr. Girard:

In response to your request for allocation of water from the Village of Jericho water distribution system, we submit the following:

The Village of Jericho Water Department,
without restricting or encumbering its present users,
can furnish your demand for water in the amount of
3,780 gallons per day for the above referenced project
based on the use of low flow fixtures.

Please call if you have any questions or require further assistance.

Sincerely,

Ronald Buxton, Chairman
Board of Water Commissioners

cc: Peter Heil
